EDUCATION

KLE TECHNOLOGICAL UNIVERSITY

B.E. Computer Science and Engineering

CGPA: 8.55

Hubballi, Karnataka

2022 - 2026

Prarthana PU Science College

Higher Secondary

Percentage: 93.33%

Vijayapur, Karnataka

2020 - 2022

Prarthana Public School

Secondary

Percentage: 93.6%

Vijayapur, Karnataka

2020

EXPERIENCE

University of Borås | Research Intern

Sweden | Feb 2025 - Jul 2025

- Designed and implemented a computer vision model using Python and the ConvNeXt architecture to classify textile fabrics with **88.39% accuracy**.
- Engineered a data processing pipeline and performed rigorous debugging to optimize model performance, directly improving the robustness of the classification system.

SKILLS

Languages

C++, Python, JavaScript, SQL

Core Competencies

Data Structures & Algorithms, Object-Oriented Programming (OOP)

Frameworks/Libraries

React, Next.js, Node.js.

Databases & Tools

MongoDB, MySQL, Git, GitHub, Docker

Cloud

Google Cloud Platform (GCP)

PROJECTS

Personal Growth Guide

Next.js, React, Node.js, MongoDB

- Architected and developed a full-stack web application using a MERN-style stack (MongoDB, Express.js, React, Node.js) with Next.js for server-side rendering.
- Implemented a secure REST API with JWT-based authentication for user management and protected routes, ensuring data integrity and a seamless user experience.

Facial Emotion Recognition and Engagement Analysis

Vision Transformers, K-Means, Python

- Built a facial emotion recognition model using Vision Transformers (ViTs) for feature extraction.
- Applied K-Means clustering to classify user engagement levels without manual labeling.
- Achieved 84% accuracy on AffectNet and silhouette scores above 0.78 for engagement analysis.

E-Commerce Platform

React, Node.js, MongoDB, Tailwind CSS

- Built a full-stack e-commerce platform featuring a React frontend, Node.js API, and MongoDB for data persistence.
- Implemented core functionality including secure user authentication, a dynamic product catalog, and a shopping cart with a responsive UI.

CERTIFICATIONS

- Software Testing — NPTEL (Jul-Oct 2025)
- Cyber Security and Privacy — NPTEL (Jul-Oct 2025)
- Agile Methodology — Infosys SpringBoard
- Continuous Integration and Delivery - DevOps — Infosys SpringBoard
- Complete SQL Course 2025: Become an expert at SQL!** — Udemy
- Git & GitHub Version Control** — Udemy (View Certificate)
Completed May 2025 | Learn Git Fast course by Pradeep L
- "Facial Emotion Recognition and Engagement Analysis Using Vision Transformers", published at the 3rd Conference on Congress on Control, Robotics and Mechatronics, Warangal, India — 2025.
